

Home Health Care Supportive Service Options

For each of us there is a time or several times when we will need additional services in order to remain living at home. It may be from a recent slip or fall that finds us admitted to the hospital for a short stay and then needing an additional short stay at a skilled nursing rehab facility. During that time if you feel you would like to return to your home at The McLellan and need additional services outside of the scope of The McLellan, you will be required to contract services with an outside agency. We can assist you in connecting with outside agencies to help you with your home, personal and nursing care needs.

Included below are suggestions of some local senior home agencies.
